

### **Activity 3- Finding out what people want (consultation)**

You have already found out where people want the park to be. Now it is time to find out what the park will look like and which features it will have.

How are you going to do this? Edna wants you to present your ideas to her. These might include:

- public meetings
- online voting for idea
- postal votes for ideas
- going into schools to ask children what they want from their local park
- a schools competition to come up with ideas for the park

**You might have other ideas too.**

List them here:

Edna agrees with your ideas. She wants to visit Treeford Primary and Treeford Secondary schools with you. She is keen to involve the children and find out what they think.

She wants to know what you will say to the children. She wants you to keep it short and between one hundred and two hundred words. You should have your own ideas for the Park, but listening to the children's ideas will be far more important.

Write down what you and Edna will say to the children here-

Total Words-

It is important that everyone feels included and listened to.  
Who else would you speak with? Some examples might include local Cubs/brownies, senior citizen groups, parent and toddler groups etc.-
